Service Date:

Treating Physician:

/ /

Dr. DiLeo

***HCPCS code for the radiopharmaceutical/imaging agent***

- Tc 99m sestamibi, diagnostic, per study dose, up to 40 mCi **A9500**
- Tc 99m tetrofosmin, diagnostic, per study dose, up to 40 mCi **A9502**
- TL-201 thallous chloride, diagnostic, per mCi **A9505**

***CPT codes for myocardial perfusion procedure(s)***

- Myocardial perfusion imaging; single study **78460**
- Myocardial perfusion imaging; multiple studies **78461**
- Myocardial perfusion imaging; tomographic, single study **78464**
- Myocardial perfusion imaging; tomographic, multiple studies **78465**
- Myocardial perfusion imaging; tomographic, multiple studies **78472**
- Cardiac blood pool imaging, gated equilibrium; planar, single study **78473**
- Cardiac pool imaging, gated equilibrium; multiple studies **78481**
- Cardiac blood pool imaging, (planar), first pass technique; single study **78483**
- Cardiovascular blood pool imaging, gated equilibrium, at rest **78494**

***Add-on Procedure Codes***

- Myocardial perfusion study with wall motion, qualitative or quantitative study **78478**
- Myocardial perfusion study with ejection fraction **78480**
- Cardiac blood pool imaging, gated equilibrium, single study **78496**

***Cardiovascular Stress Test, When Performed***

- Cardiovascular stress test,with interpretation and report **93015**
- Cardiovascular stress test, without interpretation and report **93016**
- Cardiovascular stress test,with interpretation and report **93015**
- Cardiovascular stress test,without interpretation and report **93016**
- Cardiovascular stress test, tracing only **93017**
- Cardiovascular stress test,interpretation and report only **93018**

***Selection of HCPCS/CPT codes for any pharmaceutical stress agent***

- Injection, adenosine, 30 mg **90780**
- Injection, dobutamine HCl, per 250 mg (Dobutrex) **90784**
- Injection, dipyridamole, per 10 mg (Persantine IV) **36000**

***Injection / Infusion Administration***

- IV Infusion for therapy, up to one hour **90780**
- Therapeutic, prophylactic or diagnostic injection (specify material injected); intravenous **J1250**
- Introduction of needle or intracatheter, vein **J1245**
